Notes:

<p>Technical correction: Certain values in the 9/21/07 reports were interpreted to be "as of" 12/31/05 and 12/31/06, respectively. This has since been determined to be incorrect; the correct interpretation is that the values are as of 7/1/05 and 7/1/06, respectively. This revision has slightly reduced the total number of PHI-insured individuals and the number of large insured and self-insured individuals.</p>
